Player-coach leader with 20+ years building and scaling business and technical customer-facing teams from zero to N. Former CRO who led enterprise platform (sw + services) growth to \$100M+ ARR by hiring and developing a talented team, setting operational and technical standards, and embedding directly in strategic customer engagements to review solutions, architectures, and translate field insights into product direction. Achieved highest manager score company-wide for mentorship and team development. Stanford AI/ML certified (ML, NLP, Computer Vision); hands-on with Python, PyTorch, RAG systems, and agentic AI workflows. Energized by ambiguity, defining what "great" looks like, and creating the playbooks that turn one-off wins into repeatable patterns.
